4. Care and Maintenance

The Sirocco II requires very little maintenance. By following the instructions within this manual, the fan will operate problem-free for years. Turn power off to clean. A vacuum can be used to clear the fan of any dust build-up and a dry cloth may be used to wipe the surface. Do not use gasoline, thinner or other harsh chemicals to clean fan.

5. Safety

Reverse polarity protection ensures protection of the fan when the input supply is connected in the reverse way.

Overcurrent protection ensures protection against short circuit or damage to the motor.

6. Warnings

To ensure your safety and the life of the fan, please observe the following:

- Do not position the fan too closely to any object or material that may be sucked or drawn into the blade.
- Do not allow any object to obstruct or stop the spinning of the blade. Inhibiting the blade's ability to spin may result in a shortened lifespan.
- Do not use outdoors.
- Do not use on wet surfaces or immerse in water.
- Do not allow water, cleaning products or other liquids to be sprayed onto the fan's motor housing or controls.
- Do not use if the power supply cord becomes frayed, brittle or damaged.
- Do not use gasoline, thinners or other harsh chemicals to clean the fan.
- Do not use near fireplaces, furnaces, stoves or mechanical equipment that produce excessive heat.
- This fan is not to be used by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction.
- Children should be supervised to ensure that they do not play with the fan.
